

EUROPEAN UNION

Delegation of the European Union to Bosnia and Herzegovina

CORRIGENDUM No. 2

Project Title: Support to the Police Reform Process, BiH
Publication reference: EuropeAid/ /129821/C/SUP/BA
Tender number: EC/BiH/10/018

The following text in the specifications of Item 1.3:

Server Virtualization

Server Virtualization product comparable to:
VSphere 4.1 ESXi enterprise plus or equivalent
vCenter Site Recovery Manager 4 or equivalent
Necessary licenses according to the servers offered under 2.1

Is hereby replaced with:

Server Virtualization

Server Virtualization product compatible with
servers specified in 2.1 and
storage system offered under 2.2
Necessary licenses according to the servers offered under 2.1

The following text in the specifications of Item 2.1:

Servers

Four (4) quad-core CPUs, at least 2.5GHz CPU clock, x64 architecture, support for Intel-V or AMD-VT and ability to extend to 4 8-core processors

Is hereby replaced with:

Servers

Four (4) quad-core CPUs, at least 2.5GHz CPU clock, x64 architecture, support for Intel-V or AMD-VT and ability to extend to 8 4-core processors

The following text in the specifications of Item 2.2:

Storage system

Interface Fiber Channel SAN, iSCSI SAN, or NAS

Is hereby replaced with:

Storage system

Interface Fiber Channel 8Gb/s or iSCSI, SAN or NAS

The following text in the specifications of Item 2.3:

Network devices

Certified to be compatible with Virtualization SW • a Network Distributed Switch for virtualization with support for Virtualization SW ESX and ESXi hypervisors or equivalent and integration with Virtualization SW vCenter Server or equivalent.

Maximum Supported Configurations: • 64 Virtualization SW hosts per VSM • 2048 virtual Ethernet ports per Virtualization SW vDS, with 216 virtual Ethernet ports per physical host • 512 active VLANs • 32 physical NICs per physical host • 256 PortChannels per Virtualization SW vDS, with 8 PortChannels per physical host Security • Ingress and egress and extended L2, L3 and L4 ACLs on Ethernet and virtual Ethernet ports with packet counters. • Virtual Service Domain for Layer 4 through

EUROPEAN UNION

7 services virtual machine High Availability • Nonstop Forwarding: Continued forwarding despite loss of communication between the VSM and VEM. • Process Survivability: Critical processes run independently for ease of isolation, fault containment, and upgrading. Processes can restart independently in milliseconds without losing state information, affecting data forwarding, or affecting adjacent devices or services. Management • VSM installation wizard for Virtualization and network administrators • Layer 2 and 3 connectivity between VSM and VEM • OS Software CLI console • Enhanced Remote SPAN (ERSPAN) Type III: Remote port mirroring • SSH v2 • TACACS+ • Syslog – • Role based access control (RBAC) IP Multicast RFC 3376:IGMPv3 snooping Quality of Service RFC 2474: DSCP marking RFC 2698: Two Rate Three Color Marker

Is hereby replaced with:

Virtual network switch

Certified to be compatible with Virtualization SW offered under item 1.3
