

## CLARIFICATION No.1

Project Title: Support for implementation of the EU communication strategy for enlargement in BiH

Publication Ref.: EuropeAid/130249/C/SER/BA

Our ref.: EC/BIH/TEN/10/031

### Question 1

In reference to the expression of interest for the above mentioned project, we would kindly ask if you can provide clarification for the following point for us:

**In the Technical capacity criterion 21.3.1, it is mentioned that the candidate has successfully completed at least 1 project:" Project value of at least 100 000 EUR in the fields related to this contract (media and public relations) – completed within the previous 36 months prior to the launch of this tender – proportion carried out by the candidate must be a minimum of 70%."**

Could you please clarify which projects are considered eligible according to this criterion:

- should we assume that all projects with a proportion of more than 70,000 EURO of budget carried out by the candidate are eligible or
- in all projects of a budget of more than 100,000 EURO of budget the candidate must have a percentage of more than 70%.

### Answer 1

Please note that the candidate has to respect both – the minimum value of the project completed in the relevant field and within the required period as well as the minimum percentage of involvement as indicated in the technical capacity criterion. It means that, in all relevant projects (in a field and within period of value 100.000 EURO or above, the candidate proportion of involvement in the project should be 70% or above in order to ensure the sufficient association of the candidate with the project.
