

# EU HOUSING INTERVENTIONS PROGRAMME

represents the next phase in the European Union's efforts to alleviate the effects of the 2014 floods. Programme aims to provide durable housing solutions and improved livelihood opportunities to the most vulnerable families whose homes were damaged or destroyed in floods and landslides.

## WHAT WE ACCOMPLISHED?

**Almost 2.500 people** provided with safe housing

**288 new houses** built

Scan the code to watch the story about family moving into their new home

**568 housing units** rehabilitated

**Mentorship and advisory services**

provided to all beneficiaries of economic empowerment during the first year

**204 households** received support packages related to agriculture production and self-employment
